PRICE LIST OF SUCCULENTS, ROCK GARDEN PLANTS
AND CACTUS

E. P. BRADBURY

Las Tunas Cactus Ranch
FONTANA, CALIFORNIA

Terms and prices—cash with order. Prices include delivery anywhere in the United States except where otherwise stated. Species marked with a star are very easy and sure to root and will be sold as cuttings if desired at 10c each or 12 for \$1.

COLLECTIONS

20 different Succulents. Unrooted cuttings	\$1.50.
40 different Succulents. Unrooted cuttings	\$3.00.
75 different Succulents including cuttings and plants10.00
125 different Succulents including cuttings and plants20.00
20 different <i>Opuntia</i> cuttings, unnamed (not postpaid)3.00
40 different <i>Opuntia</i> cuttings, unnamed (not postpaid)6.00
10 different Cactus seedlings2.00
10 different Aloes, small \$2.00, large plants (not postpaid)	3.50
5 different Agaves (not postpaid)2.50
5 different Euphorbias2.00
10 different Echeverias2.00
14 different Echeverias3.50
8 different Crassulas1.00
15 different Sedums2.00
20 different <i>Mesembryanthemum</i> cuttings1.50

<i>ADROMISCHUS</i> <i>crispatus</i> . Very dainty little plant with crimped leaves1.00
<i>A. maculatus</i> . Leaves spotted with purple2.00

AEONIUM. Large growing *Sempervivums*

* <i>A. arboreum</i> . Tall growing. Bright green rosettes15
* <i>A. arboreum</i> var. <i>purpureum</i> . Rosettes wine colored15
<i>A. canariense</i> . Rosettes 12" across when full grown50
* <i>A. decorum</i> . Beautiful little bush. Rosettes red15
* <i>A. Haworthii</i> . Similar to above but gray green15
* <i>A. tabularis</i> Hybrid. Large bright green rosettes15
<i>A. gigantum</i> Rosettes dark green tinged red 12-18" across	.50
* <i>A. holochrysum</i> Shrubby15

AGAVE—none postpaid.

<i>A. albicans</i> Beautiful small growing species50
<i>A. americana</i> (American Aloe) Large and quick growing	..25
<i>A. americana variagata</i> . Leaves yellow margined25
<i>A. americana medio-picta</i> . Leaves with a yellow stripe in center50
<i>A. atrovirens</i> Becomes enormous. Beautiful species1.00
<i>A. attenuata</i> Leaves soft and smooth. Light green50
<i>A. cantala</i> Long narrow gray leaves. Attains large size50
<i>A. decepiens</i> Stiff short leaves. Bright green25
<i>A. deserti</i> Small species. Very gray green50
<i>A. ferox</i> Very similar to <i>atrovirens</i>1.00
<i>A. filifera</i> Small species with white threads hanging from leaves50
<i>A. franzosinii</i> Leaves pearl gray. Large grower50
<i>A. lechugilla</i> Short narrow leaves. Medium sized50
<i>A. shawii</i> Wide short leaves tipped with red spine1.00
<i>A. sisalana</i> Smith bright green leaves50
<i>A. verschaffeltii</i> Small, compact. One of the best50
<i>A. victoriae-regina</i> Small and compact. Slow growing, fine species25
<i>A. bergeri</i> . <i>A. chiapensis</i> , <i>A. salmiana</i> , <i>A. polyacantha</i> , each	.50

ALOE	Plants with thick fleshy leaves often toothed or spotted. Flowers usually brilliant red or red and yellow.	
Aloe arborescens	Tall growing, robust, flowers red.	25
A. bainesii	The tree Aloe reaching 50 feet in height.	1.00
*A. ciliaris	Climbing Aloe	25
A. cameronii	Dwarf, rare	.75
A. distans, A. mitriformis, A. nobilis	Somewhat similar	.50
A. eru, A. ferox, A. grandidentata, A. heteracantha	each	.35
A. humilis, A. humilis var brevifolia, A. spinosissima	each	.25
A. striatula, A. vera, A. hanburyana	each	.25
A. plicatilis	A rare species with leaves in two ranks	.250
A. beguini	Interesting hybrid	1.00
A. schlecteri, A. longistyla, A. marlothii	Rare species, each	.50
A. tenuior	A yellow flowered Aloe of slender growth	.50
A. candelabrum	Tall growing large plants (not prepaid)	1.00
A. percrassa	Robust nearly always in flower (not prepaid)	.50
A. salmeyckiana	Very fine flower large (not prepaid)	.50
A. saponaria	Leaves bluish, spotted	.35
A. variegata	Very popular house plant, spotted green leaves	.25
A. penthamensis	Hybrid with Gasteria, desirable	.35
A. virens	Small with very showy red flowers	.50
A. striata	Beautiful smooth and tinted leaves	.50
ALTAMIATNOA elongata	Low growing, curious new growth	.15
ANACAMPSEROS teliphiastrum, A. rufescens	Small with pink flowers	.25
BILBERGIA nutans	Flowers green and pink, beautiful	.25
BRYOPHYLLUM aliciae	Leaves large downy. Flowers red, rare	.50
B. diagremontanum	Robust grower. Forms new plants on leaves	.15
B. tubiflorum	Leaves cylindrical, spotted, very curious	.15
*BYRNESIA (Echeveria) weinbergii	Leaves very thick, pinkish	.15
CRASSULA arborescens	Fleshy erect shrub, leaves gray edged red	.50
C. cordata	Slender, flowers reddish	.25
C. elata	Trailing, flowers white on long trailing stems	.15
C. falcata	Leaves thick, sickle shaped. Flowers very showy red	.25
C. lactea	Leaves large, dark green, flowers white	.25
C. lycopodioides	Leaves minute and closely set, good	.10
C. pseudolycopodioides	Similar to above, leaves even smaller	.10
*C. multicava	Trailing habit, flowers showy, pink	.15
*C. obvalata	Leaves sickle shaped, tinged red in winter	.15
C. perforata	Stems trailing, leaves appear to be strung on stem	.25
*C. portulacea	Shrubby, excellent house plant	.15
C. rupestris	Similar to perforata but upright	.15
C. impressa	Always dwarf, flowers brilliant red	.25
*C. spathulata	Trailing habit, leaves round shiny, flowers pink	.15
*C. tetragona	Shrubby, easy to grow, good house plant	.15
C. trachysantha	Long cylindrical leaves covered with white hair	.25
C. namaquensis	Soft reddish leaves, pink flowers, fine	.25
C. cooperii	Very dwarf and free flowering, flowers pink	.15
C. columnaris	Very odd plant, leaves form dense cluster	.35
C. archeri	Leaves very closely placed, odd and rare	.35
C. barbata	Similar to columnaris but with hairy leaves	.35
C. coralina, C. rhomboidea, C. columbria, C. cornuta, C. deceptrix, C. alstoni, C. radicans, C. orbicularis	All new species, each	.35
C. ciliaris	Neat little plant with fringed leaves	.25

Crassula sp. Leaves similar to <i>Rochea falcata</i>25
<i>C. turrita</i> , <i>C. cultrata</i> , <i>C. marginalis</i> , each.....	.25
COTYLEDON orbiculata Robust, leaves nearly white, cuttings only10
<i>C. papillaris</i> Leaves small, spindle shaped, flowers pink.....	.15
<i>C. undulata</i> Powdery white leaves. Rare, showy, small .50..	.1.00
<i>C. van de heydeni</i> Small, Leaves thick spotted red, rare....	.50
<i>C. wickensii</i> Leaves long and thick, flower red, showy.....	.50
DUDLEYA ingens Large rosettes, leaves powdery white....	.50
<i>D. caespitosa</i> Leaves whitish, flowers yellow25
DYCKIA sulphurea Aloe like plant with bright yellow flowers25
<i>D. rarifolia</i> Similar to above but with brilliant orange flowers25
ECHEVERIA hovey. Leaves striped pale green, white and rose, fine25
<i>E. leucotricha</i> Rare and beautiful, leaves covered with white hair50
<i>E. linguifolia</i> Rank grower, leaves thick (not prepaid).....	.25
<i>E. multicaulis</i> Beautiful little plant, leaves glossy green to red25
<i>E. desmetiana</i> Fine species, small and bluish white.....	.25
<i>E. pumila</i> Very small species15
<i>E. oviforme</i> Upright growing, pearly white25
<i>E. rosei</i> Very large and free flowering (not prepaid).....	.25
<i>E. scaphylla</i> Thick leaves in immense elongated rosettes...	.25
<i>E. setosa</i> The most beautiful of all, leaves very hairy.....	.50
<i>E. simulans</i> Compact rosettes, yellow green tinged red.....	.25
<i>E. stolonifera</i> Pale green leaves, rather tall growing.....	.15
<i>E. maxoni</i> Rare species with dark red leaves50
<i>E. amoena</i> , <i>E. scopulorum</i> , <i>E. nivalis</i> , <i>E. pringleyi</i> , rare....	.50
<i>E. scheideckeri</i> , <i>E. turgida</i> , fine species, each50
<i>E. metallica</i> Tall growing, the true species, each75
<i>E. coccinea</i> Shrubby leaves downy, flowers red, showy.....	.15
<i>E. elegans</i> Compact rosettes almost white, flowers pink....	.25
<i>E. funckii</i> Dwarf, gray green, pretty25
<i>E. glauca</i> Hen and Chickens10
<i>E. goldmani</i> Small shrub, leaves green and reddish.....	.25
EUPHORBIA. Plants of very diverse appearance, some thorny, others perfectly smooth. A very desirable group.	
<i>E. accururensis</i>	1.00
<i>E. abyssinica</i> Large growing	2.50
<i>E. bupleurifolia</i> , <i>E. canariensis</i> , <i>E. grandidens</i> , <i>E. alcicor-</i> <i>nis</i>	1.00
<i>E. coerulescens</i> , <i>E. meloformis</i> , <i>E. obesa</i> , <i>E. officinarum</i> each	1.00
<i>E. polygona</i> , <i>E. pseudocactus</i> , <i>E. resinifera</i> , <i>E. tenuirama</i> , each	1.00
<i>E. caput medusae</i> , <i>E. cerifirmis</i> , <i>E. mamillaris</i> , <i>E. splen-</i> <i>dens</i> , each25
<i>E. clava</i> , <i>E. nerifolia</i> , <i>E. lactea</i> , <i>E. grandicornis</i> , <i>E. buba-</i> <i>lini</i> , each75
<i>E. muizii</i> , <i>E. Cladestina</i> , <i>E. ferox</i> , <i>E. valida</i>	1.00
<i>E. heptagona</i> , <i>E. tirucali</i> , <i>E. mauritanica</i> , <i>E. tithymaloides</i> each25
<i>E. pteroneura</i> , <i>E. xylophyloides</i> , <i>E. pfersdorffii</i>50
FURCRAEA lindenii Similar to <i>Agave</i> , leaves green and yellow50
GASTERIA angulata , <i>G. picta</i> , <i>G. verrucosa</i> Strap shaped leaves25
GORMANIA eastwoodii Rare succulent, allied to <i>echeveria</i> .75	

GRENOVIA <i>gracilis</i> New rosettes like little green rose buds25
<i>G. diplocycla</i> Neat little plant25
HAWORTHIA small stemless plants with stiff leaves, very decorative.	
<i>H. coactata</i> , <i>H. cymbiformis</i> , <i>H. margaritifera</i> , <i>H. rugosa</i> each25
<i>H. pilifera</i> , <i>H. lineata</i> Interesting new species, each.....	.50
<i>H. arachnoides</i> Beautiful almost translucent leaves, rare..	1.00
<i>H. tesselata</i> , <i>H. vittata</i> Odd species, each35
HECHITA <i>argentea</i> Agave like, leaves silvery.....	.25
KALANCHOE <i>fedtschenkoi</i> Leaves mottled, flowers orange	
<i>K. flammea</i> Flowers scarlet25
<i>K. marmorata</i> Leaves spotted purple, robust15
<i>K. somaliensis</i> Leaves tinged deep pink, very fine25
<i>K. thrysiflora</i> Leaves almost blue, flowers yellow15
<i>K. brachyloba</i> Leaves powdery white, very fine species.....	.50
<i>K. welwitschii</i> also four undetermined species, each.....	.25
KITCHINGIA <i>mandrakensis</i> Leaves enormous downy, bronze, rare	2.00
KLEINEA <i>articulata</i> Stems jointed like a sausage, curious .15	
<i>K. ficoides</i> Leaves long pointed, blue50
<i>K. fulgens</i> Flowers scarlet25
<i>K. longiflora</i> Stems cylindrical without leaves, curious.....	.50
<i>K. mandraliscae</i> Leaves almost blue, robust15
<i>K. radicans</i> Similar to above but smaller15
<i>K. repens</i> Leaves bright green, hanging basket plant, good .15	
<i>K. anteuphorbium</i> Tall shrub with thick cylindrical branches25
*MESEMBRYANTHEMUM. Shubby species. <i>M. aureum</i> , <i>M. brownii</i> , <i>M. caulescens</i> , <i>M. deltoides</i> , <i>M. echinatum</i> , <i>M. glaucum</i> , <i>M. lacerum</i> , <i>M. lehmanii</i> , <i>M. maximum</i> , <i>M. pterillae</i> , <i>M. speciosum</i> , <i>M. uncinatum</i> , <i>M. veruculatum</i> , <i>M. violaceum</i> , each	
	.20
Mesembryanthemum Low growing species. <i>M. agninum</i> , <i>M. bolusii</i> , <i>M. bulbosum</i> , <i>M. carolischmidtii</i> , <i>M. filicaule</i> , <i>M. intonsum</i> , <i>M. laeve</i> , <i>M. linguiforme</i> , <i>M. musculinum</i> , <i>M. puttkamerianum</i> , <i>M. rhomboideum</i> , <i>M. tigrinum</i> , <i>M. vespertinum</i> , <i>M. vittatum</i> , <i>M. multiceps</i> , <i>M. cigarrifera</i> , <i>M. alstonii</i> , <i>M. bellidiflorum</i> , <i>M. croceum</i> , each.....	
	.25
Mesembryanthemum <i>stellatum</i> , <i>M. stelligerum</i> , each.....	.50
OLIVERANTHUS <i>elegans</i> . Beautiful red flowered plant..	.25
*OTHONNA <i>crassifolia</i> Dwarf trailing succulent with yellow flowers	
	.15
PACHYPHYTUM Elegant succulent plants of slow growth, leaves thick, tinted in amethyst and pearl shades.	
<i>P. uniflorum</i> , <i>P. bracteosum</i> , <i>P. hookerii</i> , <i>P. compactum</i> , each50
*PORTULACARIA <i>afra</i> Shrub with small green leaves, robust grower	
	.15
ROCHEA <i>coccinea</i> Tall succulent with heads of scarlet flowers	
	.25
<i>R. falcata</i> Leaves thick, powdery flowers scarlet, showy....	.25
<i>R. longifolia</i> Tall growing, long silvery leaves, flowers orange50
SEDUM. One of the most desirable groups of the succulent, leaves thick and usually highly colored. Most species are tender.	

* <i>S. adolphi</i> Leaves thick, bright yellow, showy species.....	15
<i>S. allantoides</i> Leaves nearly white, cylindrical. Rare	50
* <i>S. amecamecamum</i> Leaves bright green	15
<i>S. dasypphyllum</i> Very dwarf, minute plant, very desirable..	15
* <i>S. diffusum</i> . Trailing, leaves with pinkish tints, flowers white	15
* <i>S. mexicanum</i> Bright green leaves, flowers yellow.....	15
* <i>S. moranense</i> Low growing, tints of red in the leaves.....	15
<i>S. multiceps</i> Bushy little plant, desirable	25
* <i>S. pachyphyllum</i> One of the best, showy and easy to grow .	15
* <i>S. palmeri</i> Soft green leaves in rosettes, flowers bright orange	15
* <i>S. praealtum</i> Shrub with bright yellow flowers	15
<i>S. praetltum cristatum</i> A cristate form of the above, very showy	25
<i>S. sieboldi</i> A deciduous species with beautiful pink flowers .	25
* <i>S. stahlii</i> Leaves thick, small dark red, flowers yellow....	15
* <i>S. treleasii</i> Similar to <i>S. adolphi</i> but leaves are powdery white	15
<i>S. guatamalense</i> The best of all, leaves glossy bright red..	25
<i>S. nevi</i> Dwarf, light green rosettes, very neat	25
<i>S. sieboldi variegata</i> , leaves green and yellow, rare.....	50

SEMPERVIVUM. Mostly hardy plants, leaves in dense rosettes close to the ground.

<i>S. arachnoideum</i> Rosettes covered with cob-web like threads	25
<i>S. calcareum</i> Rosettes light green tipped purple	15
<i>S. globuliferum</i> Rosettes bright green	15
<i>S. tactorum</i> Robust grower, rosettes large purplish in winter	15

STAPELIA and allied plants. An interesting group usually with thick, fingerlike, leafless stems.

<i>S. gigantea</i> Flowers yellow veined purple 10" across	35
<i>S. grandiflora</i> Flowers wine red, large	25
<i>S. hirsuta</i> Flowers purple with white fringe	25
* <i>S. variegata</i> Flowers purple and yellow. Star shaped.....	15
<i>S. parvipuncta</i>	50
<i>S. engleriana</i>	1.00
<i>S. hanburyana</i> , <i>S. metmelis</i> , <i>S. peglerae</i> , <i>S. scutellata</i> , each	25
<i>S. schinzii</i> Large flower	35

DIPLOCYANTHUS ciliatus, DUVALIA polita, each.....

PIERANTHUS foetidus Star shaped flowers

CARALLUMA lutea, *C. leendertzii*, each

C. sprengeri Beautifully marked stems.....

ECHIDNIPSIS ceriformis

HUERNIA oculata, *H. Zebrina*, *H. aspera*, each

H. penzigii Stapelia like plant

CEROPEGIA fuscata Very strange plant

C. dichotoma Leafless green stems

C. radicans, *C. stapeliformis*, each

STYLOPHYLLUM densiflorum Long cylindrical white leaves, rare

UMBILICUS chrysanthus Dwarf plant with downy rosettes, attractive

URBINIA agavoidea Thick glossy leaves allied to Echeveria

CACTUS

Seedlings are at least a year old before being offered for sale and many of them are two years or more. Three and four year old plants can be supplied in many species at a higher price. The actual size of the seedling will vary with the species, some at two years will be 3 to 4 inches tall and others of the same age will not be over an inch. My seedlings are so well rooted and healthy that they will go right on growing and thriving for you. No attempt is made to name them according to any one system. They are named as was the seed when received.

CEPHALOCEREUS and **PILOCEREUS**, wooly and hairy types of tall growing cactus.

<i>celsianus</i>	.50	<i>hoppenstedii</i>	1.00
<i>celsianus languinosior</i>	.50	<i>palmeri</i>	.25 .50 .75
<i>celsianus bruennowii</i>	.50	<i>polylophus</i> (4 yr.)	.250
<i>chysacanthus</i>	.50	<i>senelis</i> (Old Man)	.50
<i>chrysomallus</i>	.75	<i>straussii</i>	.50
<i>columna-Trajani</i>	.50	<i>trollii</i>	1.00
<i>dautwitzii</i>	1.00	<i>sartorianus</i>	.50
<i>erytrocephalus</i>	.50	<i>itetzo</i>	.50
<i>euphorbioides</i>	.50	<i>exerens</i>	.50

CEREUS. Tall growing cactus

<i>aureus</i>	.25	<i>pringleyi</i>	.25
<i>bavosus</i>	.25	<i>queratoensis</i>	.50
<i>baumanii</i>	.25	<i>spachianus</i>	.25
<i>baumanii</i> yellow spined	.25	<i>stellatus</i>	.25
<i>bonplandi</i>	.25	<i>strigosus</i>	.25
<i>bridgesii</i>	.25	<i>terscheckii</i>	.25
<i>candelabrum</i>	.50	<i>weberii</i>	.50
<i>candelaris</i>	1.00	<i>cartwrightianus</i>	.50
<i>candicans</i>	.25	<i>deficiens</i>	.50
<i>chalybaeus</i>	.25	<i>seidelli</i> (large)	2.50
<i>chende</i>	.25	<i>emoryi</i>	.25
<i>chichipe</i>	.50	<i>forbesii</i>	.25
<i>chiotilla</i>	.25	<i>del Morali</i>	.25
<i>coerulescens</i>	.25	<i>lamprochlorus</i>	.25
<i>coryne</i>	.25	<i>monvilleanus</i>	.50
<i>dumortieri</i>	.25	<i>argentinensis</i>	.50
<i>eburneus</i>	.25	<i>silvestri</i>	.25
<i>geometrizans</i>	.25	<i>cochai</i>	.50
<i>caesius</i>	.50	<i>husacha</i>	1.00
<i>grandiflorus</i>	.25	<i>schickendantzi</i>	.25
<i>griseus</i>	.25	<i>schaferi</i>	.75
<i>laetus</i>	.25	<i>alamoensis</i>	.50
<i>marginatus</i>	.25	<i>speciosus</i>	1.00
<i>melanostele</i>	1.00	<i>ausespinus</i>	.50
<i>paraguayensis</i>	.50	<i>schottii</i>	.25
<i>pasacana</i>	.25	<i>serpentinus</i>	.25
<i>pecten-abiriginum</i>	.75	<i>flagelliformis</i>	.25
<i>peruvianus</i>	.25	<i>cometes</i>	.25

MAMILLARIA. Small and delicate cactus often covered with white hairs.

<i>angularis</i>	.25	<i>micromeris</i>	.25
<i>bocasana</i>	.35	<i>zielmania</i>	.35
<i>candida</i>	.25	<i>magnimama</i>	.25
<i>caput-medusae</i>	.25	<i>zeheriana</i>	.35
<i>centricirrha</i>	.25	<i>longicoma</i>	.35
<i>chionocephala</i>	.25	<i>echidnoidea</i>	.25
<i>crucigera</i>	.25	<i>haageana</i>	.35
<i>elegans</i>	.25	<i>heesiana</i>	.35
<i>elongata</i>	.25	<i>nivosa</i>	.35
<i>hahniana</i>	.50	<i>wildii</i>	.35
<i>leona</i>	.25	<i>camtotricha</i>	.50
<i>longimamma</i>	.25	<i>kunzeana</i>	.35
<i>parkinsoni</i>	.25	<i>galeottii</i>	.35
<i>plumosa</i>	.50	<i>carnea</i>	.35
<i>rhodantha</i>	.25	<i>scheidiana</i>	.35
<i>uncinata</i>	.25	<i>trichacantha</i>	.35
<i>viereckii</i>	.25	<i>coronaria</i>	.35
<i>spinosissima</i>	.25		

HYLOCEREUS and SELENICEREUS. Long slender types	
<i>H. triangularis</i>	25
<i>H. ocamponis</i>	50
HARRISSIA. Slender types of <i>Cereus</i>	
<i>brookii</i>	50
<i>fragrans</i>	50
<i>bonplandi</i>	25
CORYPHANTHA. Similar to <i>Mamillaria</i>	
<i>eliphantidens</i>	35
<i>ottonis</i>	35
<i>andreae</i>	35
<i>macrothele</i>	35
ECHINOPSIS. Spherical cactus with showy flowers.	
<i>bridgesii</i>	25
<i>camplycantha</i>	50
<i>formosa</i>	50
ECHINOCACTUS. Barrel shaped types	
<i>beguini</i>	50
<i>beguini senelis</i>	50
<i>bicolor</i>	25
<i>corniger</i>	25
<i>electracanthus</i>	50
<i>rectispinus</i>	25
<i>grusoni</i>	25
<i>ingens</i>	25
<i>macdowellii</i>	1.00
<i>phyllacanthus</i>	25
<i>recurvus</i>	25
<i>saglionis</i>	50
<i>scopa</i>	1.50
<i>mimulosus</i>	.25
<i>nidulans</i>	.35
<i>lophothele</i>	.35
<i>pampeanus</i>	.35
<i>minuscula</i>	.35
<i>pringleyi</i>	.25
<i>crassihamatus</i>	.25
<i>ottonis</i>	.35
<i>concinus</i>	.35
<i>straussianus</i>	.25
<i>tabularis</i>	.35
<i>floricomis</i>	.50
<i>velenovskii</i>	.50
ECHINOCEREUS	
<i>delaetii</i>	50
<i>dubius</i>	50
<i>blankii</i>	50
LOBIVIA. Similar to <i>Echinocactus</i>	
<i>graulichi</i>	50
<i>ferox</i>	50
<i>boliviensis</i>	50
<i>longispina</i>	.35
GYMNOCALYCIUM gib-	
<i>bosum</i>	.50
OPTUNTIA. The prickly pear, robust cactus of easy growth.	
Please note that these are sent as unrooted cuttings and	
are NOT POSTPAID except where otherwise mentioned.	
<i>bergeriana</i> Tall grower with yellow spines	.25
<i>chlorotica</i> A beautiful species not easy to grow	.25
<i>ciribe</i> Beautifully spined	.50
<i>cylindrica</i> Dark green cylindrical joints	.25
<i>dillenii</i> Long yellow spines	.25
<i>erinacea</i> White haired species	.25
<i>fillipendula</i> Low growing interesting species	.25
<i>durangensis</i> Black spines and small orange flowers	.25
<i>hystricina</i> White haired	.25
<i>invicta</i> Short joints with long black spines	.75
<i>leucotricha</i> Short white spines	.25
<i>mamillata</i> Almost spineless	.25
<i>microdasys</i> The Golden Prickly Pear. Very fine	.25
<i>quimilo</i> A South American species	.50
<i>tesajo</i> Very long orange colored spines	.25
<i>aciculata</i> Rare and beautiful species, flowers ruby red	.50
<i>linguiformis</i> Cows tongue cactus, desirable species	.35
<i>scheerii</i> Golden yellow spines	.35
<i>santa rita</i> Joints are thin, almost spineless and pink	.25
<i>brandtiana</i> Very white spined, rare, small plants, post-	
paid	1.00
<i>bulbispina</i> Very dwarf and compact, small plants, post-	
paid	1.00
<i>cereifomis</i> Same as <i>brandtiana</i>	1.00
<i>floccosa</i> Long white hair, from high Andes, small plants,	
postpaid	1.00
<i>pentlandi</i> Andean species	.75
Many other species named and unnamed can be supplied
